TURNING HAIR GRAY

COMPLICATED BALLOT LAW MAKING TROUBLE FOR PRINTERS.

NAMES TO BE IN ROTATION

Device Adopted to Give All Candidates a Fair Show Will Likely Prove Costly to County.

When the voters of Nodaway county and Missouri receive their election ballots at the primary election on August 6, they will receive a product which has caused more gray hairs in the heads of county clerks and printers than any other product of the ballot maker's art since the first voting was done. And it is all due to the new election law which provides that the names of each candidate shall appear on the ballots in each precinct an equal number of times for the same office.

County officials have solved a portion of the problem, but there are phases of the law over which they are still scratching their heads, and it is doubtful if the state legislature knew the full extent of the brain damage it was causing when the law was passed.

It probably will make the election ballots cost four times as much as in the past, when names were printed alphabetically and the man named Adams got the benefit of his name by staying at the top of the list of candidates for the office he sought. Incidentally it shows what fool things legislators do once in a while, although their motives were probably good in this instance.

The section of the election laws which embodies the new idea is as follows:

Sec. 5869. Tickets, how prepared—how voted—At all primaries there shall be as many separate tickets as there are parties entitled to participate in said primary election. There shall also be a non-partisan ticket, upon which, under appropriate title for each office, shall be printed the names of all persons by whom declaration papers shall have been filed, as required by this article, who do not announce by such declaration papers as candidates for any political party as defined by this article. The names of all candidates shall be arranged under the appropriate title of the respective offices, and under the proper party designation upon the party ticket and upon the non-partisan ticket, as the case may be; and the names of the candidates for each office shall be so alternated on the ballots used in the several election districts or precincts, that each name shall appear thereon substantially an equal number of times at the top, at the bottom, and in each intermediate place, if any of the lists or group of names in which such candidate's name belongs, and all officers charged with the preparation and distribution of such ballots shall cause the printers' forms to be so transposed and the ballots so made up as to carry out the intent of this provision. If any elector write upon his ticket the name of any person who is a candidate for the same office upon some other ticket than that upon which his name is so written, this ballot shall not be counted for such person.

This is how the thing will probably be worked if the simplest method is adopted and some of the candidates for minor offices do not raise a hullabaloo. There are four candidates for governor on the Democratic ticket this year. The law requires that 100 ballots shall be printed for every fifty voters or fraction thereof. Taking the simplest method, this would mean that twenty-five ballots would have Dave Ball's name at the top, twenty-five would have Cowherd's, twenty-five Houchin's and twenty-five Major's. If the primary were entirely for the office of governor this arrangement, although complex, compared with the old style, would answer, but there are three candidates for sheriff on the Democratic ticket, and how can the same ballots be divided into thirds?

Take, for instance, the Republican situation. In this case the simplest division would be upon the office of sheriff, as there are four aspirants for the Republican nomination in this county. Then there arises the same situation as in the Democratic ticket.

There are but two candidates for treasurer on the Republican ticket, and in this instance they would come out all right by merely alternating but there are four or five candidates for governor, and here the mixup begins again. How will they be straightened out?

It is likely that the secretary of state will have to issue a bulletin telling how the ballots shall be printed and these puzzles straightened out, and that the prosecuting attorneys of the various counties will have to do some digging to advise the county officials and printers.

As the ballots will have to be different in number, heading and alternating of candidates for each of the voting precincts of Nodaway county, and as the instance will be rare when a printer can run more than twenty-five ballots without changing his forms, and as there will have to be something like 14,000 or more ballots printed, the size of the job—and, incidentally, the bill—can, in a measure, be comprehended.

One of the candidates for a state office, who is much given to analyzing political situations, told a representative of this paper recently how he expected to reap a benefit out of the new ballot law. His name begins with one of the first letters in the alphabet and he is on the Democratic ticket, where there are four candidates for governor. He figures that his name therefore will appear on the first twenty-five ballots handed out to voters by the election judges. He figures also that there are more than 1,200 election precincts in the state where there are less than fifty voters and that, therefore, he will have a great advantage over his nearest competitor, alphabetically. As these 1,200 precincts contain a large percentage of the votes of the state, the candidate referred to is already debating on how he will fit up his office.

This deduction goes to show, however, that the election judge will have to be a rare combination of wisdom, impartiality and civic virtue to hand out the ballots so that every candidate will have an even break.

ENDORSED BY ALL TEACHERS.

School Amendment to Be Voted on at General Election in November.

On the ballot at the general election will be a constitutional amendment providing for the additional support of the public schools of Missouri. The amendment has the endorsement of practically every educator in the state. It has been sanctioned by the Missouri State Teachers' association.

This amendment, if adopted, will increase the revenue for public school purposes about \$500,000. How the additional money shall be expended will depend upon the legislature which will direct the appropriation.

It may, and in all likelihood will, be used in rendering state aid to the weak school districts. It is this phase of the public school system in Missouri which is weak. There are many school districts too poor to maintain even a four months course of instruction. In fact, there are sixty-four school districts in which there are less than four months of instruction.

A district in such a condition, if the constitutional school tax limit is levied, needs state aid and the money now available for such purpose is not sufficient. Those persons familiar with educational work favor the state bearing half the expense of conducting a school in the weak districts.

The short term schools in the country districts make it a disadvantage to the boy or girl living in the district. Consolidated school districts in practically every county of the state may start and maintain a rural high school if the state is in a position to render financial aid. If the school amendment passes the additional revenue raised for school purposes will allow the state to extend the required financial assistance.

As the revenue for school maintenance is to be apportioned by the legislature it is not believed that any school district would receive an undue share of the school fund. The method in which the additional revenue shall be expended has not been settled, and will be left to the action of the legislature. The school authorities favor rendering state aid with a large proportion of the increased revenue.

Went to Conception.

President H. K. Taylor went to Conception Wednesday to make further arrangements for the visit to New Engleberg abbey by the student body of the State Normal the coming Saturday.

SALES DAY ENDORSED

Numerous Talks by Members on First Project in Series of Movements for Maryville's Good.

The Commercial club dinner held Tuesday evening in the basement of the Baptist church and served by the Ladies' Aid society of that church, was a largely attended affair and resulted in awakening much enthusiasm for the sales day of the Maryville merchants, to be held next Wednesday. Several features of the sales day were discussed and the talks were made by H. C. Bower, W. F. Phares, D. R. Eversole and George L. Wilfley.

The new secretary of the club, John I. Hoffman, spoke along the line of commercial club work, and said that what was needed was some enthusiasm among the members of the club. Mr. Hoffman made a good talk, this being his first meeting with the club members.

Other talks were made by C. C. Corwin, F. P. Robinson, George Robb Ellison, Rev. Lee Harrel, Rev. J. S. Ford, Berney Harris and Prof. P. O. Landon. Mr. Landon spoke about the Chautauqua to be held in August in Maryville.

All arrangements for the sales day have been completed by the club and it will be a day of entertainment for the people that will come here on that day. Band concerts and free shows at the Empire in the afternoon of that day will be among some of the principal features.

MISS VARNER TO ST. JOSEPH.

After Proffer of Two Years' Standing She Accepts Desirable Position.

Miss Calla Varner, who was principal of the Maryville high school the past year, has accepted a very desirable position with the St. Joseph city schools. During the past year she was strongly urged to take the place, but she felt she could not leave her work in Maryville to accept the position that has been a standing offer for two years.

Miss Varner has many friends in Maryville who will be glad to hear of her success, although they greatly regretted her departure from the Maryville schools. She is a splendid, cultured, broad minded woman and the loss of her fine companionship will be keenly felt by the students of our high school with whom she was in much favor. The schools of St. Joseph have gained something worth while.

BROUGHT SUIT FOR \$1,500.

Mason & Wilderman Sue the R. C. H. Automobile Corporation in Michigan.

An attachment suit was brought Wednesday by Attorneys Harvey and Sawyers for Mason & Wilderman against the R. C. H. corporation, doing business in Michigan. The company manufactures R. C. H. automobiles. In the petition the plaintiffs state the corporation has not complied with the laws of Missouri relating to foreign corporations, and that this corporation is not authorized to transact any business in the state. The defendant company became indebted to the plaintiffs for \$1,500, but the plaintiffs have been unable to collect the money. Three R. C. H. cars that were at the Burlington depot were attached by Sheriff Tilson Wednesday.

ARRIVED ABOUT FIVE O'CLOCK.

Denver Autoists Came in From Tarkio With Maryville Escort and Left at 5:30.

The party of autoists from Denver, Col., who are homeward bound from their Denver to Chicago trip, arrived in Maryville Tuesday evening about 5 o'clock.

There were seven cars belonging to the party of twenty tourists. They were accompanied to Maryville from Tarkio by several cars of Maryville people, and several other cars of our people met them out of the city about a mile and escorted them to the Elks club, where the Coloradans were received and served by a number of Elks and their ladies.

Mr. and Mrs. Ferdinand Townsend were happily surprised in meeting five of their old Denver friends, two of whom, Mr. G. W. Kittridge and Mr. Dick Jackson, were high school chums of Mr. Townsend during his residence in Denver. The others were Mr. J. E. Yetter and Mr. and Mrs. Ralph Gillette.

Mrs. W. J. Staples met an old school friend in Mr. Matthew Owen of Longmont, Col., whom she had not seen since their school days.

Another member of the party was Lord Oglesby, the owner of Estes Park.

The governor of Colorado and the mayor of Denver were not with the party, having become worn out on their trip to Chicago and are returning home on the train.

The Denver visitors left the city about 5:30 under escort of the St. Joseph party, of whom mention was made Tuesday.

BUY MOTOR FOR PASTOR.

St. Louis Union Methodist Church Members Purchase One For Rev. Robbins.

Members of the official board of the Union Methodist church of St. Louis believe they have solved the problem of the downtown church. The board has donated a five-passenger automobile to the Rev. Grant A. Robbins, believing the machine to be more economical than obtaining an assistant to help the minister with his pastoral visiting. The 800 members of that congregation are so scattered it is impracticable for one man to visit his parishioners without the modern mode of travel.

Rev. Robbins was formerly pastor of the First M. E. church of this city.

It happened that a color scheme of pink and white prevailed in the costumes of the guests, as all wore white dresses and pink hair ribbons, and it is hoped those colors will show up in the pictures taken of them before their departure, as they made a very pretty sight. Those present were Charlotte Hope Wheelchel, Evelyn and Laura Margaret Raines, Harriet Miller, Eva Margaret Frank, Esther Ardella Roseberry, Bettie Harris, Lucile Meyer, Myrtle Frazer, Virginia Curfman, Mayme Grems and the little honor guest, Thelma Peniston.

Mrs. Madeline Caffray visited between trains last Saturday. Mrs. Caffray is in the millinery business at Leon, Ia.

Mr. William Nash is quite sick at his home in South Hopkins, being threatened with paralysis and the loss of his eyesight.

John Stevens, David Robb and John Morehead went to Kansas City with Frank Litch and returned in the Morehead car.

G. R. Goodson of the Owl pharmacy is in Kansas City on business this week.

Jerry Saylor of Des Moines is a guest at the E. C. Wolfers, Jr., home.

Rev. Walton and family returned from their camping trip on the Nodaway last week looking fine on account of the delightful outing.

Mr. and Mrs. Fred B. Monroe and Mrs. Mary Wray are planning a trip to the Ozarks this month.

Horbert Collins, who fell and broke his leg some time ago, is getting along nicely and will soon be able to be out.

Grandma New is quite sick at the home of her son, William New, east of town.

Miss Marjory Saylor was in Bedford Monday.

The six months old child of Mr. and Mrs. Jesse Renfrow, north of town, died very suddenly last Friday night and was buried Sunday.

The Skating rink is still a source of attraction, auto parties from both Maryville and Bedford being in attendance quite often. This week Prof. Earl Beaman of Kansas City, a wonderful trick skater, is the leading attraction and is drawing large crowds every night.

The ball game at Clearmont Sunday resulted in a score of 3 to 2 in favor of Clearmont. A large delegation of Hopkins fans went over to see the game, and they were the sorest bunch

of rooters ever seen when they reached home. Our little neighbor on the west certainly understands the art of handing lemons to their visitors.

The Hopkins Gas and Development company are all very busy these days, as it takes some of them most all the time to watch the progress of the drillers. It is not a "paper proposition" any longer, however as the actual work is being done, and the machine is running night and day. Dr. Sargent, the president of the company, is keeping close tab on the results, and nothing escapes his watchful eye. Here's hoping they strike oil or gas or coal, or even gold, we are not particular, just so it is something that will make us all rich.

WANTS PUBLIC TO HEAR HIS STORY

Attorneys for Judge Archbald Issue Statement.

ASKS SUSPENSION OF JUDGMENT

Reply From Accused Jurist Indicates His Line of Defense in Forthcoming Trial of Impeachment Case.

Washington, July 10.—Counsel for Judge Robert W. Archbald of the commerce court, against whom articles of impeachment have been reported in the house, issued a statement asking that public opinion in the Archbald case be suspended until the accused jurist has had an opportunity to present his defense to the senate, which, sitting as a court, will try the charges against him. Consideration of the Archbald impeachment resolution in the house will be resumed on Thursday.

The statement made public by his counsel, the first public reply from the judge, and indicating the tenor of his defense in the expected trial, in part is as follows:

Denies Charges.

"Judge Archbald's counsel state that he emphatically denies that in any of the transactions referred to in the report of the judiciary committee, or which the committee has submitted to the house, he used or attempted to use his influence as a judge improperly.

"Conscious of his own integrity, it never occurred to him in any of the transactions referred to that others might suspect that he was acting otherwise than uprightly.

"When the original charges against him were presented to the president and the attorney general, he was given no notice and had no hearing. In the proceedings before the house judiciary committee he was permitted to cross-examine witnesses, but it was explicitly stated by the chairman that the proceeding was a hearing and not a trial.

Wants to Tell His Side.

"In the hearings before the committee the principal charges which had led the president and the attorney general to take action were shown to be unfounded. When the evidence was closed, what charges the committee might make could not be known to Judge Archbald or his counsel until they were presented to the house. Judge Archbald therefore will have no opportunity to present his defense until summoned to the senate and until he has a hearing there he asks that public opinion in his case may be suspended."

The statement took up in detail the principal charges upon which the judiciary committee hearings were held.

REBELS DETAINED AMERICAN CONSUL

Held With Twenty-Five Others in Office of Mexican Railway.

ROW STARTS OVER \$5,000 CHECK

Railroad Company Had Stopped Payment—All Released After Agreement to Make Good the Amount.

Juarez, July 10.—Twenty-five Americans, including American Consul Thomas D. Edwards, were detained in the office of the Mexican Northwestern railroad here for nearly two hours.

Rebel officers had become angered at the officers of the Mexican Northwestern, which is owned by British interests, on account of the alleged worthlessness of a \$5,000 check payable to the rebels as an export duty on a consignment of gold ore by the American Smelting and Refining company in Chihuahua. The shipment had arrived in El Paso but when the rebels attempted to cash the \$5,000 check banks in El Paso refused payment. Since the check was given the federalists had entered Chihuahua City and it is believed that the American Smelting and Refining company immediately stopped payment on the check.

Building Was Surrounded. American Consul Edwards went to the Northwestern offices to confer with the railroad officials. The conference was on at 5 o'clock when suddenly the doors of the building were surrounded by armed men.

There were 40 persons in the building, 15 being Mexicans. Consul Edwards from within the building telephoned for Col. Pascual Orozco, Sr., head of the garrison, who arrived in a few minutes and ordered the guards to release all minor employees.

At 7 o'clock the railroad officials were given their liberty. It was said they had agreed to make the check good.

Mormons Between Two Fires. Agua Prieta, Mex., July 10.—The Mormon colony at Sanjines is in daily dread of rebel ravages. The Mormons have gathered arms and ammunition and will resist attack, according to Ira Langdon, a Mormon from Colonia Morolos, who arrived here.

El Paso, Tex., July 10.—The Mormons in Northern Sonora are having more trouble with the Mexican federal soldiers than with the rebels, according to O. P. Brown, Mormon agent here, who left for Colonia Morolos and Colonia Oaxaca to investigate conditions and report to Senator Smoot of Utah and Fall of New Mexico, who have called attention to the Mormon situation.

WOMEN APPEAL TO THE VETERANS

Suffragists to Visit Soldiers' Home at Leavenworth in Special Train, Seeking Votes.

Topeka, July 10.—Three hundred suffrage workers of Topeka, Leavenworth and Lawrence will swoop down on Leavenworth to push along the suffrage work at the Soldiers' home and in Leavenworth.

The women will leave Topeka on a special train decorated with banners and streamers inscribed: "Votes for women."

There will be a reception at the two stops—Lawrence and Leavenworth—by brass bands. The train will go by way of Wilder, and will reach the penitentiary at 10:40 o'clock in the morning.

After a trip through the building of the prison the party will go to the Soldiers' home, where a suffrage program will be given. The women expect to show the 8,000 soldiers at the home just what suffrage means and what it will do for the state.

"KIMMEL" AGAIN HEARD FROM

Struck by Lightning, "Man of Mystery" is in Hospital Preparing for Another Operation.

Chicago, July 10.—George A. Kimmel, a "man of mystery" and figure in a life insurance court suit, is in a hospital here preparing for another surgical operation on his head. He says the operation is made necessary by injuries suffered recently when he was struck by lightning.

The bolt, he says, dislodged the silver plate which was placed in his head several weeks ago when surgeons operated on him in an effort to restore his memory. He says he was struck a week ago at Berrien Springs, Mich.

NO CONVENTION WITHOUT A ROW

Even Teachers in Session at Chicago Quarrel Like Politicians.

FRAUD CHARGES ANGER WOMAN

Head of National Education Association Accused of Being Beneficiary of Ballot Box Stuffing by Chicago Faction.

Chicago, July 10.—Open charges that at the convention at Boston two years ago, when Mrs. Ella Flagg Young of Chicago was elected president, the rolls were "stuffed," that teachers were enrolled as active members credited from Chicago schools when they lived in other states; and that their dues were paid by Chicago principals to insure more votes for Mrs. Young, were voted upon by the National Educational association.

Discussion Became Heated. The board of directors adopted unanimously a resolution that all reference to the charges should be "expunged from the records, without impugning the motives or impeaching the character of any one." It was the intention that the whole subject should be wiped out of future discussion.

At the same time it was declared Secretary Irwin Shepard, who made the charges, was not guilty of any misstatements when he referred to the violation of certain technicalities at the Boston election.

The sessions of the directors were marked by heated discussions in which Mrs. Young, who is superintendent of the Chicago schools, deprecated that "the name of the first woman president of the association should be dragged in the mud."

Tried to Sustain Charges.

The charges started when President Carroll G. Pearce criticised the report of Secretary Shepard. Mrs. Young had said if the association approved of the secretary's report "every teacher in Chicago would be justified in suing the association for slander."

Secretary Shepard submitted a written reply in which he attempted to sustain his charges. He asserted that before the Boston convention the organization known as the Chicago Principals' club set out to promote Mrs. Young's candidacy. He charged that many persons were enrolled as active members credited from Chicago schools when in fact they lived in other states and were not connected with Chicago schools. One of these teachers, he asserted, lived in Michigan and another in Milwaukee. Altogether in this way he asserted, 86 votes were secured from persons who thus had been enrolled. He quoted letters sent from Milwaukee and New Orleans in which persons, whose names were withheld, professed to have been paid by Chicago teachers for going as active members and voting for Mrs. Young.

HOUSE IN PARLIAMENTARY ROW

Consideration of Clayton Contempt Bill Interrupted by Discussion Over "Gag" Rule.

Washington, July 10.—When the house attempted to resume consideration of the Clayton contempt bill it found itself in a parliamentary snarl.

The situation arose because Speaker Clark had announced the day before that a quorum was present and had voted to adopt the "gag" rule, making consideration of the measure possible. The tally clerk had erred in totalling his figures, however, and a quorum had not been present, thus vitiating the action of the house.

The minority leader, Mr. Mann, and ex-Speaker Cannon led in the renewal of the fight against the "gag" rule. After a skirmish the speaker finally declared nearly half of the preceding day's work illegal and vacated it. The house then readopted the rule.

Great Naval Review.

Portsmouth, Eng., July 10.—The greatest naval review in the history of the world took place off Spithead. Practically the entire fighting strength of the British fleet, including the four great battle ships recently withdrawn from the Malta base, were inspected by the members of parliament preparatory to the summer maneuvers.

Referendum in North Carolina.

Greensboro, N. C., July 10.—Republican state leaders, active in the recent campaign in support of Theodore Roosevelt, have just adopted resolutions favoring the reference of the issue as to whether Taft or Roosevelt is the rightful nominee to the precinct primaries throughout the state.

Start Santa Fe Bridge.

Sibley, Mo., July 10.—The active work on the new million dollar bridge of the Atchison, Topeka & Santa Fe railway across the Missouri river here is about to begin. The construction company has called for 200 men to begin work immediately.

Thirty Dead in English Mine.

Conisboro, Yorkshire, Eng., July 10.—The outer workings of the Cadeby colliery, near here, were destroyed by an explosion of fire damp. There were 31 miners in the workings at the time of the disaster, and all were killed.

Isn't Your Vacation Just About Due?

I don't think there ever was a time when so many people were thinking about and planning vacations as right now. There seems to be something in the air which makes everybody long to pack up and go away awhile.

The tourist fares are very attractive this summer, too. There are rates to the West, rates to the North and rates to the East. Liberal stopover privileges and long limits.

I wish you would come in and see me when you are planning your trip; tell me where and about when you want to go and I'll give you a good deal of help. It's my job with the Burlington Route to see that all travelers are well taken care of. I'll gladly answer your questions, tell you when reduced rates start and take most of the detail off your mind.

NO. 32.

TURNING HAIR GRAY

COMPLICATED BALLOT LAW MAKING TROUBLE FOR PRINTERS.

NAMES TO BE IN ROTATION

Device Adopted to Give All Candidates a Fair Show Will Likely Prove Costly to County.

When the voters of Nodaway county and Missouri receive their election ballots at the primary election on August 6, they will receive a product which has caused more gray hairs in the heads of county clerks and printers than any other product of the ballot maker's art since the first voting was done. And it is all due to the new election law which provides that the names of each candidate shall appear on the ballots in each precinct an equal number of times for the same office.

County officials have solved a portion of the problem, but there are phases of the law over which they are still scratching their heads, and it is doubtful if the state legislature knew the full extent of the brain damage it was causing when the law was passed.

It probably will make the election ballots cost four times as much as in the past, when names were printed alphabetically and the man named Adams got the benefit of his name by staying at the top of the list of candidates for the office he sought. Incidentally it shows what fool things legislators do once in a while, although their motives were probably good in this instance.

The section of the election laws which embodies the new idea is as follows:

Sec. 5869. Tickets, how prepared—how voted—At all primaries there shall be as many separate tickets as there are parties entitled to participate in said primary election. There shall also be a non-partisan ticket, upon which, under appropriate title for each office, shall be printed the names of all persons by whom declaration papers shall have been filed, as required by this article, who do not announce by such declaration papers as candidates for any political party as defined by this article. The names of all candidates shall be arranged under the appropriate title of the respective offices, and under the proper party designation upon the party ticket and upon the non-partisan ticket, as the case may be; and the names of the candidates for each office shall be so alternated on the ballots used in the several election districts or precincts, that each name shall appear thereon substantially an equal number of times at the top, at the bottom, and in each intermediate place, if any of the lists or group of names in which such candidate's name belongs, and all officers charged with the preparation and distribution of such ballots shall cause the printers' forms to be so transposed and the ballots so made up as to carry out the intent of this provision. If any elector write upon his ticket the name of any person who is a candidate for the same office upon some other ticket than that upon which his name is so written, this ballot shall not be counted for such person.

This is how the thing will probably be worked if the simplest method is adopted and some of the candidates for minor offices do not raise a hullabaloo. There are four candidates for governor on the Democratic ticket this year. The law requires that 100 ballots shall be printed for every fifty voters or fraction thereof. Taking the simplest method, this would mean that twenty-five ballots would have Dave Ball's name at the top, twenty-five would have Cowherd's, twenty-five Houchin's and twenty-five Major's. If the primary were entirely for the office of governor this arrangement, although complex, compared with the old style, would answer, but there are three candidates for sheriff on the Democratic ticket, and how can the same ballots be divided into thirds?

Take, for instance, the Republican situation. In this case the simplest division would be upon the office of sheriff, as there are four aspirants for the Republican nomination in this county. Then there arises the same situation as in the Democratic ticket.

There are but two candidates for treasurer on the Republican ticket, and in this instance they would come out all right by merely alternating but there are four or five candidates for governor, and here the mixup begins again. How will they be straightened out?

It is likely that the secretary of state will have to issue a bulletin telling how the ballots shall be printed and these puzzles straightened out, and that the prosecuting attorneys of the various counties will have to do some digging to advise the county officials and printers.

As the ballots will have to be different in number, heading and alternating of candidates for each of the voting precincts of Nodaway county, and as the instance will be rare when a printer can run more than twenty-five ballots without changing his forms, and as there will have to be something like 14,000 or more ballots printed, the size of the job—and, incidentally, the bill—can, in a measure, be comprehended.

One of the candidates for a state office, who is much given to analyzing political situations, told a representative of this paper recently how he expected to reap a benefit out of the new ballot law. His name begins with one of the first letters in the alphabet and he is on the Democratic ticket, where there are four candidates for governor. He figures that his name therefore will appear on the first twenty-five ballots handed out to voters by the election judges. He figures also that there are more than 1,200 election precincts in the state where there are less than fifty voters and that, therefore, he will have a great advantage over his nearest competitor, alphabetically. As these 1,200 precincts contain a large percentage of the votes of the state, the candidate referred to is already debating on how he will fit up his office.

This deduction goes to show, however, that the election judge will have to be a rare combination of wisdom, impartiality and civic virtue to hand out the ballots so that every candidate will have an even break.

ENDORSED BY ALL TEACHERS.

School Amendment to Be Voted on at General Election in November.

On the ballot at the general election will be a constitutional amendment providing for the additional support of the public schools of Missouri. This amendment has the indorsement of practically every educator in the state. It has been sanctioned by the Missouri State Teachers' association.

This amendment, if adopted, will increase the revenue for public school purposes about \$500,000. How the additional money shall be expended will depend upon the legislature which will direct the appropriation.

It may, and in all likelihood will, be used in rendering state aid to the weak school districts. It is this phase of the public school system in Missouri which is weak. There are many school districts too poor to maintain even a four months course of instruction. In fact, there are sixty-four school districts in which there are less than four months of instruction.

A district in such a condition, if the constitutional school tax limit is levied, needs state aid and the money now available for such purpose is not sufficient. Those persons familiar with educational work favor the state bearing half the expense of conducting a school in the weak districts.

The short term schools in the country districts make it a disadvantage to the boy or girl living in the district. Consolidated school districts in practically every county of the state may start and maintain a rural high school if the state is in a position to render financial aid. If the school amendment passes the additional revenue raised for school purposes will allow the state to extend the required financial assistance.

As the revenue for school maintenance is to be apportioned by the legislature it is not believed that any school district would receive an undue share of the school fund. The method in which the additional revenue shall be expended has not been settled, and will be left to the action of the legislature. The school authorities favor rendering state aid with a large proportion of the increased revenue.

SALES DAY ENDORSED

Numerous Talks by Members on First Project in Series of Movements for Maryville's Good.

The Commercial club dinner held Tuesday evening in the basement of the Baptist church and served by the Ladies' Aid society of that church, was a largely attended affair and resulted in awakening much enthusiasm for the sales day of the Maryville merchants, to be held next Wednesday. Several features of the sales day were discussed and the talks were made by H. C. Bower, W. F. Phares, D. R. Eversole and George L. Wilfley.

The new secretary of the club, John I. Hoffman, spoke along the line of commercial club work, and said that what was needed was some enthusiasm among the members of the club. Mr. Hoffman made a good talk, this being his first meeting with the club members.

Other talks were made by C. C. Corwin, E. P. Robinson, George Robb Ellison, Rev. Lee Harrel, Rev. J. S. Ford, Berney Harris and Prof. P. O. Landon. Mr. Landon spoke about the Chautauqua to be held in August in Maryville.

All arrangements for the sales day have been completed by the club and it will be a day of entertainment for the people that will come here on that day. Band concerts and free shows at the Empire in the afternoon of that day will be among some of the principal features.

MISS VARNER TO ST. JOSEPH.

After Proffer of Two Years' Standing She Accepts Desirable Position.

Miss Calla Varner, who was principal of the Maryville high school the past year, has accepted a very desirable position with the St. Joseph city schools. During the past year she was strongly urged to take the place, but she felt she could not leave her work in Maryville to accept the position that has been a standing offer for two years.

Miss Varner has many friends in Maryville who will be glad to hear of her success, although they greatly regretted her departure from the Maryville schools. She is a splendid, cultured, broad minded woman and the loss of her fine companionship will be keenly felt by the students of our high school with whom she was in much favor. The schools of St. Joseph have gained something worth while.

Mason & Wilderman Sue the R. C. H. Automobile Corporation in Michigan.

An attachment suit was brought Wednesday by Attorneys Harvey and Sawyers for Mason & Wilderman against the R. C. H. corporation, doing business in Michigan. The company manufactures R. C. In the petition the plaintiffs state the corporation has not complied with the laws of Missouri relating to foreign corporations, and that this corporation is not authorized to transact any business in the state. The defendant company became indebted to the plaintiffs for \$1,500, but the plaintiffs have been unable to collect the money. Three R. C. H. cars that were at the Burlington depot were attached by Sheriff Tilson Wednesday.

The party of autoists from Denver, Col., who are homeward bound from their Denver to Chicago trip, arrived in Maryville Tuesday evening about 5 o'clock.

There were seven cars belonging to the party of twenty tourists. Mr. and Mrs. Ferdinand Townsend were happily surprised in meeting five of their old Denver friends, two of whom, Mr. G. W. Kittridge and Mr. Dick Jackson, were high school chums of Mr. Townsend during his residence in Denver. The others were Mr. J. E. Yetter and Mr. and Mrs. Ralph Gillette.

BUY MOTOR FOR PASTOR.

St. Louis Union Methodist Church Members Purchase One For Rev. Robbins.

Members of the official board of the Union Methodist church of St. Louis believe they have solved the problem of the downtown church. The board has donated a five-passenger automobile to the Rev. Grant A. Robbins, believing the machine to be more economical than obtaining an assistant to help the minister with his pastoral visiting. The 800 members of that congregation are so scattered it is impracticable for one man to visit his parishioners without the modern mode of travel.

Rev. Robbins was formerly pastor of the First M. E. church of this city.

Picnic for King Harold's Band.

Mrs. Leslie E. Dean gave a picnic and luncheon in Chautauqua park Tuesday evening from 4 to 8 o'clock for King Harold's Band of the First M. E. church, of whose work she is the superintendent. The children had a delightful time playing various games and eating good things. Mrs. Dean's guests were Ray and Clifford Hull, Harlan and Mildred Wray, Margaret and Katherine Remus, Dorothy and Ralph Snoderly, Mary Elizabeth Jones, Merle Ford, Ruth Miller, Loma and Ruth Bower, Annette and Audrey Smith, Mary Curnutt, Conrad Blackman and his guests, Jessemyne and Vernon Williams of Sugar City, Col.; Mattie and Mattie Clayton and Lucile Clayton and their little niece, Margaret Quinlan of Gilman City, Mo.

Her Fifth Birthday.

Mrs. T. J. Peniston, 309 South Main street, entertained twelve little girls Tuesday afternoon, in celebration of the birthday anniversary of her little daughter, Thelma, who was 5 years old that day. Several swings were hung for use of the guests, and they also played with bean bags and fished pea pods from two tubs of water. Mrs. Peniston served a delicious white luncheon to them. It happened that a color scheme of pink and white prevailed in the costumes of the guests, as all wore white dresses and pink hair ribbons, and it is hoped those colors will show up in the pictures taken of them before their departure, as they made a very pretty sight. Those present were Charlotte Hope Wheelchel, Evelyn and Laura Margaret Raines, Harriet Miller, Eva Margaret Frank, Esther Ardella Roseberry, Bettie Harris, Lucile Meyer, Myrtle Frazer, Virginia Curfman, Mayme Gremis and the little honor guest, Thelma Peniston.

HOPKINS.

Miss Bula Mauer of Kansas City is the guest of Miss Ethel Ulmer.

Miss Lela Caudle of Maryville was a visitor at the William Wells home, west of town, over Sunday.

Mrs. Bess Goodson came up from St. Joseph Saturday evening for a two weeks' vacation.

Frank Litch went to Kansas City last week and returned with a fine Overland car for W. L. Morehead. As an automobile is really a time saving machine as well as a luxury, we think "Bro. Morehead" did well to invest, as he not only has two farms to look after, but is a hard working Republican, is postmaster and editor and publisher of the Hopkins Journal, so we really think he needed the machine.

Mrs. Eri Edmonds is still quite sick at her home in Hopkins. Her daughter, Mrs. H. C. Goodson of Colorado Springs, is with her.

Mr. and Mrs. Luke Brown and family of Burlington Junction visited Sunday and Monday with Mrs. Brown's parents, Mr. and Mrs. Chate Herbert.

Dr. and Mrs. Walker and daughter of Kellerton, Ia., visited Mr. and Mrs.

Grandma New is quite sick at the home of her son, William New, east of town.

Miss Marjory Sayler was in Bedford Monday.

The six months old child of Mr. and Mrs. Jesse Renfrow, north of town, died very suddenly last Friday night and was buried Sunday.

The skating rink is still a source of attraction, auto parties from both Maryville and Bedford being in attendance quite often. This week Prof. Earl Beaman of Kansas City, a wonderful trick skater, is the leading attraction and is drawing large crowds every night.

The ball game at Clearmont Sunday resulted in a score of 5 to 2 in favor of Clearmont. A large delegation of Hopkins fans went over to see the game, and they were the sorest bunch

of rooters ever seen when they reached home. Our little neighbor on the west certainly understands the art of handing lemons to their visitors.

The Hopkins Gas and Development company are all very busy these days, as it takes some of them most all the time to watch the progress of the drillers. It is not a "paper proposition" any longer, however as the actual work is being done, and the machine is running night and day. Dr. Sargent, the president of the company, is keeping close tab on the results, and nothing escapes his watchful eye. Here's hoping they strike oil or gas or coal, or even gold, we are not particular, just so it is something that will make us all rich.

WANTS PUBLIC TO HEAR HIS STORY

Attorneys for Judge Archbald Issue Statement.

ASKS SUSPENSION OF JUDGMENT

Reply From Accused Jurist Indicates His Line of Defense in Forthcoming Trial of Impeachment Case.

Washington, July 10.—Counsel for Judge Robert W. Archbald of the commerce court, against whom articles of impeachment have been reported in the house, issued a statement asking that public opinion in the Archbald case be suspended until the accused jurist has had an opportunity to present his defense to the senate, which, sitting as a court, will try the charges against him. Consideration of the Archbald impeachment resolution in the house will be resumed on Thursday.

The statement made public by his counsel, the first public reply from the judge, and indicating the tenor of his defense in the expected trial, in part is as follows:

Denies Charges.

"Judge Archbald's counsel state that he emphatically denies that in any of the transactions referred to in the report of the judiciary committee, or which the committee has submitted to the house, he used or attempted to use his influence as a judge improperly.

"Conscious of his own integrity, it never occurred to him in any of the transactions referred to that others might suspect that he was acting otherwise than uprightly.

"When the original charges against him were presented to the president and the attorney general, he was given no notice and had no hearing. In the proceedings before the house judiciary committee, he was permitted to cross-examine witnesses, but it was explicitly stated by the chairman that the proceeding was a hearing and not a trial.

Wants to Tell His Side.

"In the hearings before the committee the principal charges which had led the president and the attorney general to take action were shown to be unfounded. When the evidence was closed, what charges the committee might make could not be known to Judge Archbald or his counsel until they were presented to the house. Judge Archbald therefore will have no opportunity to present his defense until summoned to the senate and until he has a hearing there he asks that public opinion in his case may be suspended."

The statement took up in detail the principal charges upon which the judiciary committee hearings were held.

The suing company bought the Adamson contract. Kansas manufacturers are watching the suit closely.

REBELS DETAINED AMERICAN CONSUL

Held With Twenty-Five Others in Office of Mexican Railway.

ROW STARTS OVER \$5,000 CHECK

Railroad Company Had Stopped Payment—All Released After Agreement to Make Good the Amount.

Juarez, July 10.—Twenty-five Americans, including American Consul Thomas D. Edwards, were detained in the office of the Mexican Northwestern railroad here for nearly two hours. Rebel officers had become angered at the officers of the Mexican Northwestern, which is owned by British interests, on account of the alleged worthlessness of a \$5,000 check payable to the rebels as an export duty on a consignment of gold ore by the American Smelting and Refining company in Chihuahua. The shipment had arrived in El Paso but when the rebels attempted to cash the \$5,000 check banks in El Paso refused payment. Since the check was given the federalists had entered Chihuahua City and it is believed that the American Smelting and Refining company immediately stopped payment on the check.

Building Was Surrounded. American Consul Edwards went to the Northwestern offices to confer with the railroad officials. The conference was on at 5 o'clock when suddenly the doors of the building were surrounded by armed men.

There were 40 persons in the building, 15 being Mexicans. Consul Edwards from within the building telephoned for Col. Pascual Orozco, Sr., head of the garrison, who arrived in a few minutes and ordered the guards to release all minor employees.

At 7 o'clock the railroad officials were given their liberty. It was said they had agreed to make the check good.

Mormons Between Two Fires. Agua Prieta, Mex., July 10.—The Mormon colony at Sanjines is in daily dread of rebel ravages. The Mormons have gathered arms and ammunition and will resist attack, according to Ira Langdon, a Mormon from Colonia Morolos, who arrived here.

El Paso, Tex., July 10.—The Mormons in Northern Sonora are having more trouble with the Mexican federal soldiers than with the rebels, according to O. P. Brown, Mormon agent here, who left for Colonia Morolos and Colonia Oaxaca to investigate conditions and report to Senator Smoot of Utah and Fall of New Mexico, who have called attention to the Mormon situation.

WOMEN APPEAL TO THE VETERANS

Suffragists to Visit Soldiers' Home at Leavenworth in Special Train, Seeking Votes.

Topeka, July 10.—Three hundred suffrage workers of Topeka, Leavenworth and Lawrence will swoop down on Leavenworth to push along the suffrage work at the Soldiers' home and in Leavenworth.

The women will leave Topeka on a special train decorated with banners and streamers inscribed: "Votes for women."

There will be a reception at the two stops—Lawrence and Leavenworth—by brass bands. The train will go by way of Wilder, and will reach the penitentiary at 10:40 o'clock in the morning.

After a trip through the building of the prison the party will go to the Soldiers' home, where a suffrage program will be given. The women expect to show the 8,000 soldiers at the home just what suffrage means and what it will do for the state.

"KIMMEL" AGAIN HEARD FROM

Struck by Lightning, "Man of Mystery" is in Hospital Preparing for Another Operation.

Chicago, July 10.—George A. Kimmel, a "man of mystery" and figure in a life insurance court suit, is in a hospital here preparing for another surgical operation on his head. He says the operation is made necessary by injuries suffered recently when he was struck by lightning.

The bolt, he says, dislodged the silver plate which was placed in his head several weeks ago when surgeons operated on him in an effort to restore his memory. He says he was struck a week ago at Berrien Springs, Mich.

NO CONVENTION WITHOUT A ROW

Even Teachers in Session at Chicago Quarrel Like Politicians.

FRAUD CHARGES ANGER WOMAN

Head of National Education Association Accused of Being Beneficiary of Ballot Box Stuffing by Chicago Faction.

Chicago, July 10.—Open charges that at the convention at Boston two years ago, when Mrs. Ella Flagg Young of Chicago was elected president, the rolls were "stuffed," that teachers were enrolled as active members credited from Chicago schools when they lived in other states; and that their dues were paid by Chicago principals to insure more votes for Mrs. Young, were voted upon by the National Educational association.

Discussion Became Heated. The board of directors adopted unanimously a resolution that all reference to the charges should be "expunged from the records, without impugning the motives or impeaching the character of any one." It was the intention that the whole subject should be wiped out of future discussion.

At the same time it was declared Secretary Irwin Shepard, who made the charges, was not guilty of any misstatements when he referred to the violation of certain technicalities at the Boston election.

The sessions of the directors were marked by heated discussions in which Mrs. Young, who is superintendent of the Chicago schools, deprecated that "the name of the first woman president of the association should be dragged in the mud."

Tried to Sustain Charges.

The charges started when President Carroll G. Pearce criticised the report of Secretary Shepard. Mrs. Young had said if the association approved of the secretary's report "every teacher in Chicago would be justified in suing the association for slander."

Secretary Shepard submitted a written reply in which he attempted to sustain his charges. He asserted that before the Boston convention the organization known as the Chicago Principals' club set out to promote Mrs. Young's candidacy. He charged that many persons were enrolled as active members credited from Chicago schools when in fact they lived in other states and were not connected with Chicago schools. One of these teachers, he asserted, lived in Michigan and another in Milwaukee. Altogether in this way he asserted, 86 votes were secured from persons who thus had been enrolled. He quoted letters sent from Milwaukee and New Orleans in which persons, whose names were withheld, professed to have been paid by Chicago teachers for going as active members and voting for Mrs. Young.

HOUSE IN PARLIAMENTARY ROW

Consideration of Clayton Contempt Bill Interrupted by Discussion Over "Gag" Rule.

Washington, July 10.—When the house attempted to resume consideration of the Clayton contempt bill it found itself in a parliamentary snarl. The situation arose because Speaker Clark had announced the day before that a quorum was present and had voted to adopt the "gag" rule, making consideration of the measure possible. The tally clerk had erred in totalling his figures, however, and a quorum had not been present, thus vitiating the action of the house.

The minority leader, Mr. Mann, and ex-Speaker Cannon led in the renewal of the fight against the "gag" rule. After a skirmish the speaker finally declared nearly half of the preceding day's work illegal and vacated it. The house then redopted the rule.

Great Naval Review. Portsmouth, Eng., July 10.—The greatest naval review in the history of the world took place off Spithead. Practically the entire fighting strength of the British fleet, including the four great battle ships recently withdrawn from the Malta base, were inspected by the members of parliament preparatory to the summer maneuvers.

Referendum in North Carolina. Greensboro, N. C., July 10.—Republican state leaders, active in the recent campaign in support of Theodore Roosevelt, have just adopted resolutions favoring the reference of the issue as to whether Taft or Roosevelt is the rightful nominee to the precinct primaries throughout the state.

Start Santa Fe Bridge. Sibley, Mo., July 10.—The active work on the new million dollar bridge of the Atchison, Topeka & Santa Fe railway across the Missouri river here is about to begin. The construction company has called for 200 men to begin work immediately.

Thirty Dead in English Mine. Conisbore, Yorkshire, Eng., July 10.—The outer workings of the Cadeby colliery, near here, were destroyed by an explosion of fire damp. There were 31 miners in the workings at the time of the disaster, and all were killed.

Isn't Your Vacation Just About Due?

I don't think there ever was a time when so many people were thinking about and planning vacations as right now. There seems to be something in the air which makes everybody long to pack up and go away awhile.

The tourist fares are very attractive this summer, too. There are rates to the West, rates to the North and rates to the East. Liberal stopover privileges and long limits.

I wish you would come in and see me when you are planning your trip; tell me where and about when you want to go and I'll give you a good deal of help. It's my job with the Burlington Route to see that all travelers are well taken care of. I'll gladly answer your questions, tell you when reduced rates start and take most of the detail off your mind.
